Forecast for Sunday 05 Jun 2022

Weather: Cloud covering the park as a band of rain moves north. The precipitation will be heavy at times and perhaps thundery in places with a chance of hail. Rain turning lighter through the morning before a second pulse of showers arrives, again heavy in places with a risk of thunder into the evening.

Chance of cloud-free hill tops above 600m: 40% first thing, dropping to 20% by the afternoon.

Low cloud and visibility: Visibility becoming very poor in any heavy rain and showers through the day. The cloud then lowering to 400-500m through the morning, shrouding many higher routes.

Forecast for Monday 06 Jun 2022

Weather: Low cloud covering the park through the morning with outbreaks of rain and drizzle gradually easing. Cloud lifting somewhat through the afternoon with occasional brighter spells possibly developing, though still with an odd shower at times. Remaining rather cloudy into the evening with any showers easing off.

Maximum wind: 10mph southerly winds on the summits.

Chance of cloud-free hill tops 600m: 20% in the morning, rising to 80% during the afternoon.

Low cloud and visibility: Widespread low cloud at 400-500m through the morning, covering many higher slopes. This gradually lifting through the afternoon to above the summits. Visibility will improve to good as the cloud lifts and morning rain eases but may become poor for a time in the afternoon when showers pass over.

Temperature: **Valleys:** Plus 10 Celsius, rising to plus 18 Celsius.
At 600m: Plus 7 Celsius, rising to plus 11 Celsius.
Freezing level: Above the summits.
